Senior Software Engineer | Distributed Systems | Java | Microservices

Summary

- Senior Developer with 8+ years of experience building scalable, fault-tolerant systems in fintech and automation domains. Specialized in designing microservices, real-time data pipelines, and high-throughput backend systems using Java, Kafka, and Spring Boot.
- Experience working on enterprise-grade systems for financial data processing and warehouse automation, with strong focus on performance, scalability, and reliability.

TECHNICAL SKILLS

Languages & Backend	Distributed Systems & Data	Core CS & AI	Testing & Observability	Cloud & DevOps
- Java (8+) - Spring Boot - REST APIs - Microservices - JavaScript	- Apache Kafka - Spark (Java) - MemSQL - MySQL, PostgreSQL - MongoDB	- Data Structure & Algorithms - System Design - Generative AI - Agentic AI	- JUnit & Mockito - Postman - JMeter - Grafana - Spring Actuator	- GCP (Associate Certified) - AWS (S3, SQS) - Docker - Kubernetes - CI/CD (GitLab, Jenkins)

Professional Experience

July 17, 2025 - Present

Senior Engineer - Software Development, GreyOrange

Warehouse Execution Systems (WES) Integrations & Backend Architecture

- Lead enterprise integrations for WES platforms across RDC environments, enabling seamless interaction with WMS and ERP systems
- Architect end-to-end integration solutions, translating business workflows into scalable backend systems
- Own delivery lifecycle from requirement analysis to production deployment for client integrations
- Develop and enhance REST/SOAP services supporting distributed warehouse operations
- Drive customization of integration workflows based on client-specific business requirements
- Facilitate technical discussions with stakeholders on APIs, data contracts, and system behavior
- Model orchestration flows for inventory movement, order processing, and robotics coordination
- Maintain high reliability of integrations in production environments with real-time operational dependencies

July 7, 2021 - July 16, 2025

Senior Associate Technology L1, Publicis Sapient (Client: Goldman Sachs)

High-Throughput Financial Data Pipelines & Distributed Backend Systems

- Engineered microservices for portfolio data ingestion and analytics pipelines
- Delivered high-performance REST APIs for large-scale financial data processing
- Leveraged Spark for distributed data transformation and batch processing workloads
- Implemented Kafka-based streaming pipelines for near real-time data flow
- Strengthened system scalability and fault tolerance for critical financial platforms
- Optimized backend workflows to improve processing efficiency and system stability

KnowHOW (Internal Tool) : Microservices-Based KPI Analytics & Reporting System

- Built services for aggregating and visualizing engineering and business KPIs
- Automated KPI extraction via GitLab API integrations
- Enabled near real-time reporting to support data-driven decision-making

Jan 7, 2019 - Jun 30, 2021

Software Engineer, Algoworks (Client: GreyOrange)

Distributed Backend Systems for Robotic Warehouse Automation

- Developed backend components powering robotic warehouse operations
- Designed microservices for system orchestration and inter-service communication
- Implemented REST/SOAP integrations with warehouse management systems
- Configured API Gateway (Zuul) for routing, load balancing, and service composition
- Supported production rollouts and onsite Go-Live operations in live warehouse environments

Voice Simulation App : Real-Time Communication & Cloud-Integrated Backend Services

- Built real-time communication services using WebSockets
- Integrated AWS services (S3, SQS) and external APIs for scalable backend functionality

Jul 17, 2017 - Dec 6, 2018

Associate Software Engineer, Appster, Gurugram

Backend Engineering for Scalable Mobile & Web Applications

- Implemented REST APIs supporting mobile and web platforms
- Designed database schemas and integrated third-party services

Education

2015 - 2017

M.Sc. Informatics

IIC, University Of Delhi

2012 - 2015

B.Sc. Electronics (H)

Sri Venkateswara College, University Of Delhi
